Once selected, the screen will advance to the change history details of the entry.

The screen will display what the address record was prior to the changes that were made.

To exit the change history details screen, click on the exit button (²) or click on the ^{C Previous} button.

Once the Change History Details screen has been exited, the user will return to the Address Change History screen, where another entry can be viewed.

To completely exit out of the program and return to the address record, click on the exit button (⁽²⁾) or click on the ^(CPrevious) button.
