

# SANDIS Mobile Application Setup Instructions

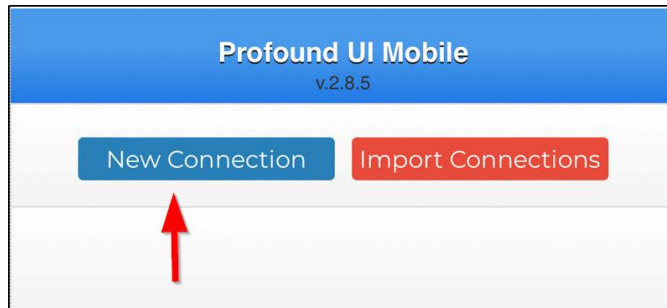

The SANDIS Mobile App gives staff quick and easy access to their caseload while out in the field. Users are able to make modifications and updates to client data, and have the ability to create new entries in frequently used modules.

From a mobile device, go to either the App Store (Apple) or the Google Play Store (Android) and download the **Profound UI** mobile app.

Currently, there is no mobile app for Windows mobile devices.

When opening Profound UI, the first page will provide the option to either to create a **New Connection** or **Import Connections**. Select [New Connection](#), if this is the first-time logging into the application.

On the **Create Connection** page, fill in the appropriate details (provided in the screen shot) and press  to save the connection information.

<b>Name</b>	Mobile
<b>Server</b>	mobile.sdrc.org
<b>Port</b>	8077
<b>SSL</b>	<input checked="" type="checkbox"/> ON
<b>Parameter</b>	Enter Optional Parameter
<b>Offline mode</b>	<input type="checkbox"/> OFF

To connect and start using SANDIS mobile, click on the **Mobile** connection to be brought to the login screen.

<b>Profound UI Mobile</b> v.2.8.5	
<b>Mobile</b>	<a href="https://mobile.sdrc.org:8077">https://mobile.sdrc.org:8077</a> 
<input type="button" value="New Connection"/>	<input type="button" value="Import Connections"/>

Once on the sign-on page, enter the appropriate SANDIS user ID and password. Then, click .

Once signed in, choose **My Caseload**, to begin view caseload.

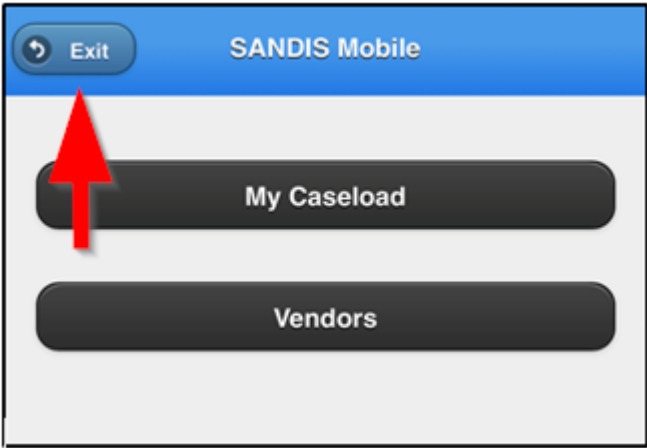

For instructions on how to navigate SANDIS Mobile, please refer to the **Mobile App Instructions for Service Coordinators** which can be found both on Wiki and under SANDIS Tutorials.

To log out of SANDIS Mobile, click on the exit button on the bottom left corner of the screen.

Click on the  button at the top left corner of the screen.

Click the  button to completely sign-out.
